

Global IP Network

One world. One network.
One AS number (2914)

The Global IP Network of NTT is consistently ranked among the top networks worldwide. We own and operate one of the world's largest Tier 1 IP backbones, fully upgraded to run dual stack — both IPv4 and IPv6.

Our dual-stack Tier 1 Global IP Network spans the Americas, Europe, Asia and Oceania on a single AS2914.

We operate the largest trans-pacific network and our capacity is always growing. With our private peering, industry leading service level agreements (SLAs) and the financial backing of one of the world's largest telecommunications companies*, you can be sure that your content, data and video are always moving to where they need to go, safe and fast.

Our clients get the same provisioning and support, no matter what bandwidth they use. Whether it's 1Gbps, 100Gbps or a bandwidth in between, our dedicated sales and engineering teams will work with you to select the most effective way to connect to our network.

One of the largest IP backbones in the world

Financially backed by NTT – the 55th largest corporation in the world

Lightning-fast provisioning

Award-winning 24/7/365 client support

Products and services

Tier 1 Global IP Network

Dedicated IP Access through Tier 1 Global IP Network, including 100G ports.

- Full/fractional/burstable
- IPv6 native - IPv6/IPv4 dual stack

Vink and Global Virtual Link

Ideal for organizations looking for cost effective, reliable and secure private path connections between their domestic and/or international locations. Provisioning of multiple VLink and global virtual link circuits on a single trunk port now available.

DDoS protection services

Built on industry-leading protection platforms and supported by the network security team, our Global IP Network's DDoS protection services allow for fast and effective actions to help mitigate the impact of DDoS attacks.

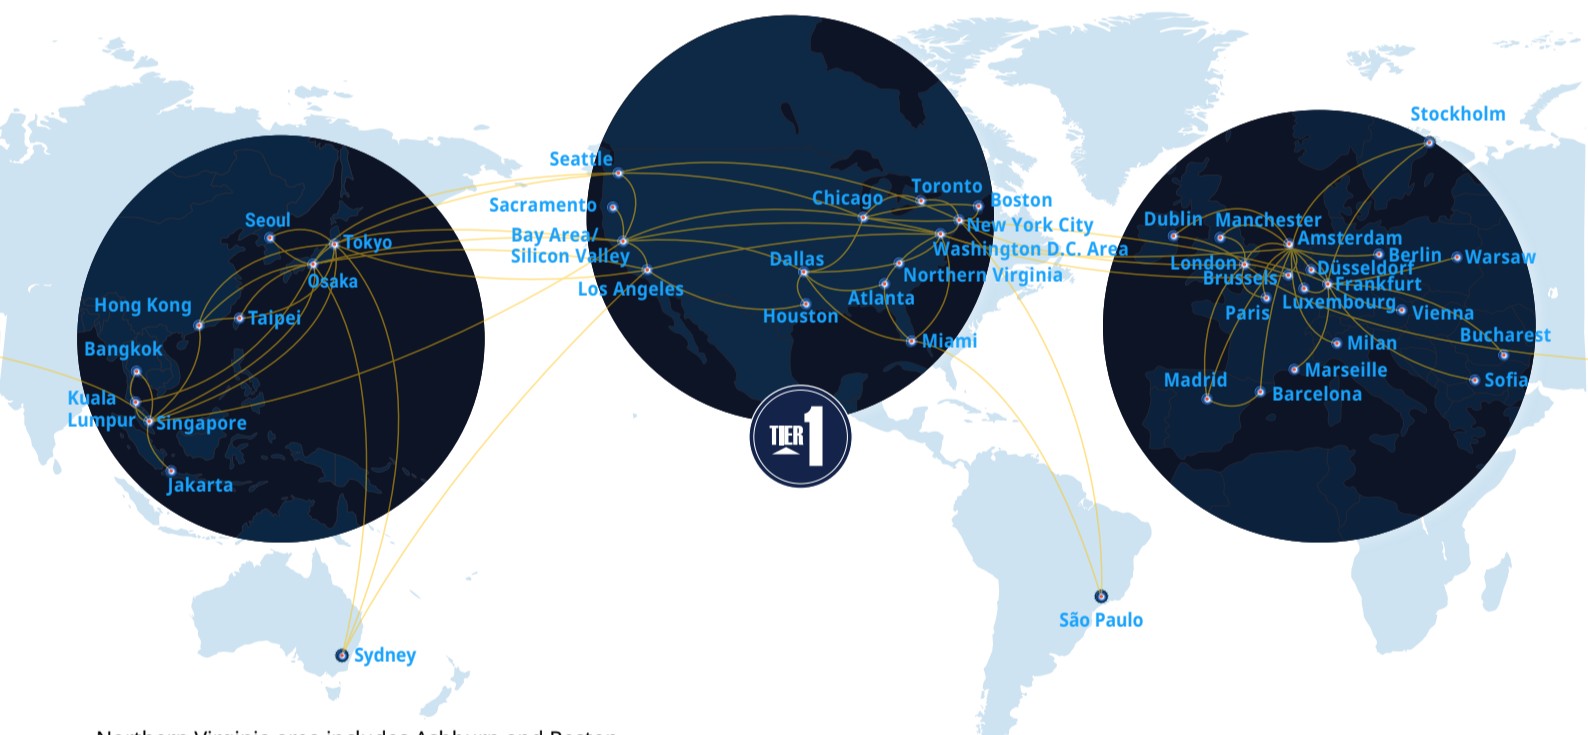

Smart content delivery (CDN) solution

Automatically distribute Internet content, video and data from the fastest server located near your end user using advanced technology and a secure transmission.

Awards and recognition

Exceptional client service

Our commitment to operational excellence and exceptional client support means we're always standing by, around the clock, 24/7/365. No call centers. No messages taken.

24/7/365 client support provided by our Network Operations Center (NOC).

Our team of experienced engineers is always one email, ticket or call away. 99.6% of all client issues are resolved within the NOC without delays or escalations.

The NOC embraces a holistic approach, focusing on timely support, quality routing and network reliability.

Our comprehensive global client portal provides real time access to a range of information, actions and reports.
